

**cornerstone.design** is a creative and professional architectural design firm founded in 2000. The firm offers a variety of professional architectural services, including but not limited to: architectural design, heritage & adaptive reuse, urban design & planning, commercial interiors, and contract administration.

The managing director, **Christopher Whyms-Stone** attained his Bachelors degree in Architecture-Design from the University of Florida, and Masters degrees in Architecture from the University of Technology Jamaica. Christopher Whyms-Stone has also served as part-time lecturer at the Caribbean School of Architecture, University of Technology Jamaica where he has taught for over 15 years.

We consider ourselves to be innovative and contemporary while recognizing the special conditions of the Jamaican environment. Issues such as history, context, climate and the use of regionally available materials are given particular importance in our projects. We also strongly believe that greater cost effectiveness, efficiency and a better way of life can be achieved through design.
